SUPPLEMENTARY INFORMATION: The CI PSCP sponsors clearances for private-sector partners who are responsible for critical infrastructure protection in accordance with Executive Order 13549. The PSCP requires individuals to complete a clearance request form that initiates the clearance process. Sector Specific Agencies (SSAs), NPPD/IP Protective Security Advisors, Sector Liaisons, the National Infrastructure Coordinating Center, and other federal officials designated by NPPD/IP are authorized to submit nominations to the central PSCP point of contact, the PSCP Administrator. The clearance request form is signed by both the federal official who nominated the applicant and by the Assistant Secretary for IP prior to initiating the clearance process. Upon approval by the Assistant Secretary for IP, IP Security Office will contact the nominee to obtain the social security number, date and place of birth, and will then enter this data into e-QIP—Office of Personnel Management’s secure portal for investigation processing. Once the data is entered in e-QIP, the applicant can complete the online security questionnaire. An alternate mailing address is an optional field on the form and may be provided if the nominee chooses to have correspondences sent to a mailing address other than the company mailing address. The IP Security Office

maintains all applicants' information in the Master Roster, which contains all the information found on the clearance request form in addition to their clearance information (date granted, level of clearance, date non-disclosure agreements signed, and type/date of investigation). The Administrator of the Master Roster maintains the information so as to track clearance processing and investigation information and to have the most current contact information for the participants from each sector.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
